

Carbon Reduction Plan

Supplier name: SHS Partners Surgical Ltd

Publication date: January 2024

Commitment to achieving Net Zero

SHS Partners Surgical Ltd is committed to achieving Net Zero emissions, the planned actions highlighted below will help us to achieve this target by 2050 at the latest.

Baseline Emissions Footprint

| | |
|---|----------------------------------|
| Baseline Year: 01/01/2023 – 31/12/2023 | |
| Additional Details relating to the Baseline Emissions calculations. | |
| <p>Due to SHS Partners surgical ltd being a service-based business we do not own any business vehicles or other such assets that would fall into the category of scope 1.</p> <p>SHS Partners surgical have a one room office which we operate 3 days a week in a building with multiple tenants in other offices. We pay a flat rate on our bills each year, we used this total and the average business rates per unit of energy used to calculate our total emissions for scope 2.</p> <p>We used the Carbon accounting software Ecologi zero to help us calculate our total scope 3 emissions, this is where many of our emissions are produced as 80% of our total emissions comes from use of freelance members of staff to complete our various contracts.</p> | |
| Baseline year emissions: | |
| EMISSIONS | TOTAL (tCO₂e) |
| Scope 1 | 0 |
| Scope 2 | 1.42 tonnes of CO ₂ |
| Scope 3 | 206.34 Tonnes of CO ₂ |

| | |
|---------------------------|---------------------------------|
| (Included Sources) | |
| Total Emissions | 208 tCO ₂ e for 2023 |

As this is our first year of reporting our emissions and our action plan, the below emissions will be the same as our baseline emissions, these will be the emissions all our future progress on our journey to net zero will be measured against.

Current Emissions Reporting

| Reporting Year: 01/01/2023 - 31/12/2023 | |
|--|---------------------------------|
| EMISSIONS | TOTAL (tCO₂e) |
| Scope 1 | 0 |
| Scope 2 | 1.42 tCO ₂ e |
| Scope 3 (Included Sources) | 206.34 tCO ₂ e |
| Total Emissions | 208 tCO ₂ e |

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 104 tCO₂e by 2029. This is a reduction of 50%. From here we hope to gradually decrease our emissions to be net zero by 2050.

Over the next five years we plan to implement further measures which will continue to drive down emissions. We are considering several initiatives and those listed below are some examples of areas we are discussing.

Some of the policies we plan on implementing include:

- Continuously work to collect the highest quality, primary data on our emissions to aid in reduction and progress measurement.
- Encouraging staff to utilize eco-friendly forms of transport for commutes to the office.
- Encouraging car sharing when possible
- Reduce business travel by air, rail, and road through effective measurement and a sustainable travel policy.
- Allowing staff to work from home unless necessary for them to be in office.
- Reduce printer usage by 30% to cut down on both paper and energy usage.
- Work with landowners at non-owned sites to measure electricity consumption and disclose fuel mixes, and to switch to 100% renewables.
- Continue to educate our people to reduce their carbon impact both in and outside of work.
- Transparently report on our environmental metrics both internally and externally.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
